To Whom It May Concern:

As residents of 60010 we vehemently disagree with adding ANY more train traffic to the village of Barrington and surrounding areas. The village is small and already congested at all hours of the day on a daily basis. Our young children spend twenty minutes in the car one-way to school because of the congestion in Barrington. If more trains are added, they will be subject to even more wasted time in a vehicle. We cannot expect this of the children in our community who already suffer from an overcrowded traffic situation. Please, do not add anymore traffic and frustration to our community by adding more trains. We implore you to consider the residents of our town, the increased environmental issues, and the impact this could have on a cohesive community. It is a bad idea no matter which way you look at it.

Sincerely,

Sara & Greg Werner
